#### Directors' Report

for the year ended 31 December 2013

The directors present their annual report and the audited financial statements for the year ended 31 December 2013.

#### **About Disability Federation of Ireland**

The Disability Federation of Ireland (DFI) represents the interests and the expectations of people with disabilities to be fully included in Irish society. It comprises of organisations that represent and support people with disabilities and disabling conditions.

There are over 130 organisations within membership, or as associates, of DFI. DFI also works with a growing number of organisations and groups around the country that have a significant disability interest, mainly from the statutory and voluntary sectors. DFI provides information, training and support, networking, advocacy and representation, research and policy development / implementation, and organisation and management development.

DFI works on the basis that disability is a societal issue and so works with Government, and across the social and economic strands and interests of society.

#### Vision and Mission

The vision of the Disability Federation of Ireland (DFI) is that Irish society is fully inclusive of people with disabilities and disabling conditions so that they can exercise their full civil, economic, social and human rights and that they are enabled to reach their full potential in life. DFI's mission is to act as an advocate for the full and equal inclusion of people with disabilities and disabling conditions in all aspects of their lives.

### **Business Review**

The Company's activities consist of promoting the affairs of organisations supporting people with disabilities. There has been no significant changes in these activities during the year.

The majority of the Company's funding is from the State, and in the current economic environment this is more vulnerable than it would previously have been. A small amount of income, which is variable, comes from other sources. This income is also vulnerable.

## **Risks and Uncertainties**

The main risk and uncertainty facing the organisation at this time arises from the current economic environment. The organisation is dependent on grant funding received from the HSE. In a changing and uncertain environment, and having regard to ongoing company repositioning work, there is also the risk associated with not prioritising the right areas of work.

#### **Directors**

In accordance with the Articles of Association, Don Bailey, Anne Coffey, Mike Glynn, Maurice O'Connell and Seán Megahey (who was co-opted January 2014) retire by rotation. These directors are eligible for re-election and can choose to offer themselves for re-election if they so wish.

### Results and dividends

The deficit for the year, after taxation, amounted to €232,048 (2012 - deficit €48,941).

#### Notes to the Financial Statements

for the year ended 31 December 2013

#### 2. Turnover

Grant income comprises revenue grants received from the Health Service Executive, Department of Environment, Community and Local Government and FAS as follows:

	2013 €	2012 €
Grant income SKILL grants for administration and small projects	1,613,065	1,803,396
	1,613,065	1,803,396

In June 2012 some of the HSE Regions stopped funding DFI directly. Instead, this funding came from the National Disability Unit and is referred to in the accounts as Health Service Executive - Central. It is expected that this process will continue with most of DFI's income coming through the HSE Central payment along with payments from HSE North East and North West regions.

### Securing Knowledge Intra Lifelong Learning (SKILL) Programme

DFI became involved with the SKILL Programme in 2006. Since then, over 1,174 staff from DFI member organisations have registered on the training programme.

DFI's role within the SKILL Programme is to administer the necessary support to organisations who have signed up to the HSE SKILL Programme and to support the participation of their staff in the training programmes. DFI administer the scheme in accordance with the terms of an agreement drawn up with HSE SKILL. DFI manage the cash flow movements of this scheme through a bank account which is separate from the finances of DFI. DFI member organisations receive a grant for each member of their staff who participates in the training and DFI administers these grants. Any grants received by DFI from SKILL but undistributed at the year end are shown separately as a cash balance in the Balance Sheet and as grants received in advance within current liabilities in the Balance Sheet. The funding for this programme has been greatly reduced. At the end of 31 December 2013, there were grants of €121,064 received in advance.
